

MATH BUILDER FOR ADMISSIONS & STANDARDIZED TESTS

This 416-page book reviews all math questions covered on standardized tests such as the ACT, GED, GMAT, GRE, PSAT, and SAT. It is comprised of chapter reviews in arithmetic, algebra, geometry, and word problems. Each

chapter includes practice tests, drills, and helpful strategies.
ORA 876\$16.95

ACT ASSESSMENT w/CD-ROM

Master the ACT and get into the college you want. ACT test experts show you the right way to prepare for this important test and score higher. Comprehensive reviews in this 1056-page book covers every possible exam topic. It also features 5 full-length practice exams. Each exam questions is fully explained to help you better understand the subject material. This book also features TESTware, with 2 full-length, timed, computerized practice exams that give you the closest thing to experiencing a live exam at a testing center. The computerized test provides actual exam conditions with controlled timing and question order. Score and test performance are automatically calculated, plus the program provides analysis of performance with suggestions for further study.
ORA 00733\$29.95

ACT TEST-BUSTER w/CD

Students can outsmart the ACT and raise test scores with the proven Testbuster strategies and techniques of the leading national coaching and review courses. Test questions are broken down and analyzed

to help the student answer more questions in less time. Reviews and drills are specifically tailored to the subject matter covered on the ACT. A full-length diagnostic test is included in this 432-page book to help the student determine strengths and weaknesses. The software includes two complete exams. (CD for Mac & Windows)
ORA 12908\$29.95

STUDENT CALCULATOR

This lightweight, dual-powered calculator features 8-digit display, easy touch keys and memory functions.
OLA 7506\$3.99

POCKET CLASSROOM CALC

This solar calculator with battery backup automatically switches from solar to battery power in low light. It features a big 8-digit display, 24 keys including one-touch square root, percent, sign change, 3-Key memory (with memory plus, minus and recall/clear), extra-large plus key and protective cover that folds a full 360 degrees to keep the calculator from dust and damage. Operating instructions included.
OEM 40101\$4.50

TEXAS INSTRUMENTS TI-108 CALCULATOR

This calculator is specially designed for students and educators. The 7 basic functions (+, -, x, ÷, %, +/-, and square root) appear in the display and make teaching easier. Features include: rugged hard plastic keys, sliding protective hard case, bright 8 digit display, color-coded keyboard simplifies operation, 3 key memory, and more.
OO TI108\$5.50
OO TI108A Box of 20\$109.75
OSP 203 Overhead w/manual\$45.00

TI-15 EXPLORER

This calculator combines the fraction capabilities of the Math Explorer with a two-line display, problem solving, place value and more. Color-coded keys, stacked fractions feature allow students to develop skills in addition, subtraction, powers, and answer format.
OO 15\$17.95

TI-30X IIS

The two-line display scientific calculator combines statistics and advanced scientific functions and is a durable and affordable calculator for the classroom. The 2-line display helps students explore math and science concepts in the classroom.
OO 30XIIS\$15.95

SCIENTIFIC CALC-U-VUE Grades 5-10

Perfect for algebra, geometry, and trigonometry! This solar-powered calculator features logarithms, scientific notation, pi, angle units, and factorial functions as well as sine, cosine, tangent and their inverses. Equations can be entered left to right, and numbers round off. Hard, plastic sliding case. 3" x 5 1/2". Teacher's kit includes an overhead, 10 student calculators, a 64-page activity book and carrying case.
OLR 0044\$19.95
OLR 0045 Set of 10\$189.95
OLR 0016 Teacher's Kit\$264.95

OVERHEAD SCIENTIFIC CALC-U-VUE

Grades 5-10
Projecting big 1 1/2" digit display and color-coded keypad make it easy to see teacher demonstrations - even from the back of the class! Exact match to OLR 0044. Solar-powered. 4" x 7 1/4".
OLR 0040\$69.95

CASIO FX260

The super solar all purpose scientific calculator is the newly required calculator for the GED. Contains 144 built-in mathematic functions including fraction functions; backspace key to fix entry mistakes; basic scientific, exponential, and trigonometric functions; single variable statistical calculations; order of operations M-D-A-S; and polar rectangular conversions. Comes with a slide on hard case.
OO 260\$11.95

CASIO FRACTION CALCULATOR

This calculator offers true fraction display and a host of powerful features that let students explore and understand fractions like never before. Features include fraction display showing numerator over denominator; converts between mixed and improper fractions, and decimal values and fractions all at the touch of a key; simplification key reduces fractions; basic trigonometric and scientific functions; rounds mixed numbers to the nearest whole number; integer division with remainder; and more. Dual solar and battery powered. Includes slide-on hard case.
OO FX65\$18.95

OVERHEAD-65

The Educator OH-65 Overhead Calculator emulated the Casio fx-65 with true fraction display.
OO 65OH\$69.95

32 CALCULATORS

TI-34II EXPLORER PLUS
The 2-line display scientific calculator with fraction capability is a durable and affordable calculator for the classroom. The 2-line display helps students explore math and science concepts in the classroom. Ideal for middle school math, pre-algebra I and II, geometry, general science, and biology. The display shows entries of up to 11 characters and can scroll up

to 88 characters on the top line and up to 10 digit results on the bottom line. It allows operations with fractions and mixed numbers. Simplify fractions automatically or step-by-step.
OO TI34EP\$20.75

TI-84 PLUS GRAPHING CALCULATOR

An enhanced version of the TI-83 Plus, this calculator offers a built-in USB port, 3x the memory of the TI-83 Plus, 13 pre-loaded Apps, a high-contrast display, as well as 2.5x the speed of the TI-83 Plus. Because the new TI-84 Plus is 100% keystroke-for-keystroke compatible with the TI-83 Plus, integrating it into your classroom will be easy. All students can now share their work by connecting their calculator to any TI presentation tools for the whole class to see, fostering a collaborative learning environment.

OO TI84 Plus\$137.95

OVERHEAD TI-84 PLUS SILVER

Overhead Viewscreen Package includes a viewscreen panel, viewscreen calculator, AC adapter, calculator to calculator link, guidebook, carrying case, calculator poster, and transparency.

OO TI84PLUSO\$409.00

TI-84 PLUS SILVER EDITION GRAPHING CALCULATOR

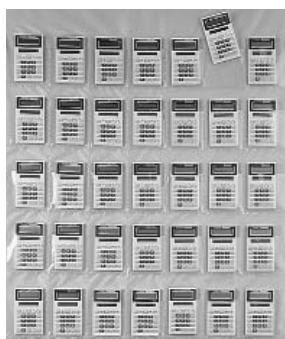

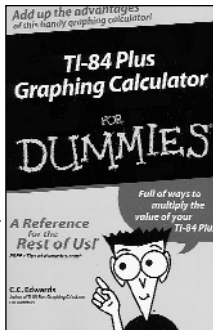

Fully loaded with a built-in USB port with cable, an improved display, 30 pre-loaded Apps including the Periodic Table, 9x the memory and 2.5x the speed of the TI-83 Plus, and much more. This calculator is keystroke-for-keystroke with the TI-83 Plus family. The USB port makes data transfer to your computer and between handhelds easier than ever.

OO TI84PS\$164.50

TI-84 PLUS GRAPHING CALCULATOR FOR DUMMIES

The perfect companion to the newest version of the popular electronic math tool. This 288-page book shows readers how to use the calculator's handheld software applications, electronic self-quizzing function, portable spreadsheet application, and other aspects of this new, feature-packed version. (C.C. Edwards)

OJW 71400\$16.99

CALC-U-STORE POCKET CHART
This storage chart holds up to 35 student calculators in 3 3/4"x4" clear numbered pockets. Tough 29"x36" red nylon chart has reinforced grommets for hanging. Fits both Basic and Scientific Calc-U-

Vue models.
OLR 0056\$19.95

CALCULATOR CADDY II

This storage unit is a useful visual organizer specifically designed to hold 30 student calculator up to 3 inches wide. Made of heavy blue denim with numbered pockets, it can be hung from map or wall hooks for easy access or folded while loaded with calculators for convenient storage. Five rows of six pockets each. 45x24 inches.

OSP 310\$39.95

CALCULATOR CADDY III

The Calculator Caddy III is made of heavy blue denim and is designed to hold 15 Texas Instruments graphing calculators (TI-80, TI-81, TI-82, TI-83) or other similar calculators up to 3 3/8" wide.

OSP 410\$32.95

LARGE CALCULATOR STORAGE POCKET CHART

Convenient chart keeps calculators organized and ready for student use. Features metal grommets for hanging. Made of durable nylon with 20 clear, numbered plastic pockets that hold calculators up to 4 1/4"Lx7 1/4"H. Chart measures 26 1/2"Lx33 3/4"H.

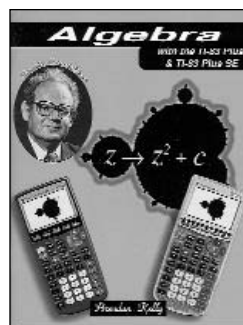

OLR 41201\$19.95

SMALL CALCULATOR STORAGE POCKET CHART

Keep smaller calculators organized and ready for students with this handy pocket chart. Features metal grommets for hanging. Made of durable nylon with 30 clear, numbered plastic pockets that measure 4 1/4" square. Chart measures 22 1/2"Lx40 1/4" H.

OLR 41200\$18.95

TI-83 PLUS BOOKS
Grades 8 & up
Each book of this series includes worked examples with keying sequences and screen displays; step-by-step exercise solutions with screen displays; and parenthetical comments that help student understand advantages

and limitations of graphic calculator output. *Exploring Functions with the TI-83* includes topics such as conics, polar coordinates, and parametric equations. *Exploring Statistics with the TI-83* includes theoretical and experimental probability, hypothesis testing and confidence intervals. *Exploring Advanced Algebra with the TI-83* includes mathematics of investment, number theory, math of chaos and fractals, and linear programming. (Brendan Kelly)

TI-84 PLUS BOOKS

Grades 8 & up
As you incorporate the graphing calculator into your mathematics classes, you will be introducing your students to the leading edge of instructional innovation in mathematics. These books have been designed to parallel our the TI-83 Plus. This enables you to involve all your students in the same lesson no matter which calculator they are using. (Brendan Kelly)

OBK 97275 Statistics\$19.95
OBK 97267 Advanced Algebra\$19.95
OBK 97259 Functions\$19.95

TI-89 BOOKS
Each of these 96-page books contain complete ready-made instructional lessons with step-by-step keying sequences as well as detailed solutions. Topics covered in *Statistics & Probability with the TI-89* include statistical inference, box plots, histograms, central tendency, measures of dispersion, scatterplots & correlation and much more. In *Advanced Algebra with the TI-89*, you will find areas such as the fundamental theorem of algebra, polynomial functions and equations, rational, trigonometric, exponential, and logarithmic functions, linear systems and programming, matrices and fractals. The book *Calculus with the TI-89* covers topics such as sequences & series, limits, derivatives of rational & transcendental functions, integration, arc length, surface area and volumes of solids of revolution, differential equations and 3-D plots to mention a few.
